

## Project ACTrain

Accessible web-based and interactive video-supported skills transfer

Programme: [LLP](#), [Leonardo da Vinci](#), [Multilateral projects for Development of Innovation](#)

Co-financer of the project: [EACEA](#)

Project partners:

- [OZARA d.o.o.](#)
- [Aeris 3 d.o.o.](#)
- [University Rehabilitation Institute Republic of Slovenia](#)
- [University of Klagenfurt, ZGH](#)
- [HRDC](#)
- [Istituto dei sordi di Torino](#)
- [Die Querdenker](#)
- [Prava poteza](#)

Duration of the project: 2010 – 2013

The name of Application - Proteus - is based on the olm (*Proteus anguinus*). It is a blind and deaf amphibian endemic to the subterranean waters of Dinaric karst caves of southern Europe.

"human fish"

Proteus Application

We are glad to be able to share an innovative story with you, a story about the **development of ICT-based training in ceramic design for the deaf and hard of hearing, blind and partially-sighted people**. The partnership of the European project **ACTrain** ([www.see-hear-touch.com](http://www.see-hear-touch.com)) as implemented within the framework of the Lifelong Learning Programme, Leonardo da Vinci, Action Development of Innovation, financed by the European Commission, believes in this story.

The partnership consists of experts within the fields of education, training, employment, vocational rehabilitation, the social inclusion of people with special needs, ICT development, pottery and ceramic design. Besides direct inclusion of the target groups within the implementation of the project, **we have developed an adapted curriculum and content for 50 lessons in ceramic design in 5 languages, and in 5 languages and 4 sign language adaptations for the deaf and hard of hearing, blind and partially-sighted people**, which will be assembled within a **completely free of charge, user-friendly and accessible ICT-application called 'Proteus'**. It is our pleasure to inform you that the results with teaching material for all 50 lessons are accessible at <http://proteus.see-hear-touch.com>. **You are kindly invited to see them!**

We are convinced that you will be able to recognise how useful the presented training is, regardless of where you want to integrate them, be it within a **working environment, school programmes** (regular education, afternoon activities, technical days, training of children with special needs etc.), **rehabilitation programmes** or just as part of **free-time activities** at home, at official social centres, or other institutions.

This project is funded by the support from the European Commission.
